

# International Workshop

## “Semantic maps: Where do we stand and where are we going?”

Liège, 26<sup>th</sup> – 28<sup>th</sup> of June 2018

### 26<sup>th</sup> of June – Salle des Professeurs (A1, 1<sup>st</sup> floor)

<b>Public lecture by Prof. William Croft</b> , University of New Mexico <i>What an evolutionary model can tell us about mechanisms of language change</i>	18:00 – 19:30
--	---------------

### 27<sup>th</sup> of June – Salle lumière (A1, 2<sup>nd</sup> floor)

**Johan van der Auwera**, University of Antwerp: Discussant during the whole workshop

	<b>Jean Winand</b> , University of Liège	<i>Opening address</i>	09:00 – 09:15
	<b>Thanasis Georgakopoulos &amp; Stéphane Polis</b> , University of Liège & F.R.S.-FNRS	<i>The semantic map model(s): An overview</i>	09:15 – 09:30
1	<b>William Croft</b> , University of New Mexico	<i>Using quantitative methods for semantic maps</i>	09:30 – 10:30
	– Break –		10:30 – 11:00
2	<b>Natalia Levshina</b> , Leipzig University	<i>Semantic maps of causative constructions: Data types and methods in contrast</i>	11:00 – 12:00
3	<b>Andrej Malchukov</b> , University of Mainz	<i>Semantic maps, attractor networks and typological hierarchies</i>	12:00 – 13:00
	Lunch (Catering) and Poster session		13:00 – 14:30
4	<b>Silvia Luraghi</b> , University of Pavia	<i>Incorporating diachronic information in semantic maps: pros and cons</i>	14:30 – 15:30
5	<b>Alexandre François</b> , Lacito (CNRS), A.N.U.	<i>Lexical travel maps: A spatial view of semantic change</i>	15:30 – 16:30
	– Break –		16:30 – 17:00
6	<b>Johann Mattis List</b> , Max Planck Institute for the Science of Human History, Jena	<i>CLICS 2.0: A computer-assisted framework for the investigation of lexical motivation patterns</i>	17:00 – 18:00
	Wine reception		18:00 – 19:00
<b>28<sup>th</sup> of June – Salle lumière (A1, 2<sup>nd</sup> floor)</b>			
7	<b>Ekaterina Rakhilina &amp; Daria Ryzhova</b> , National Research University, Higher School of Economics, Moscow	<i>Lexical semantic maps in the Moscow Lexical Typology Group</i>	09:00 – 10:00
8	<b>Maria Koptjevskaja-Tamm &amp; Volker Gast</b> , Stockholm University & Friedrich Schiller University Jena	<i>Areality in colexification patterns</i>	10:00 – 11:00
	– Break –		11:00 – 11:30
9	<b>Thanasis Georgakopoulos &amp; Stéphane Polis</b> , University of Liège & F.R.S.-FNRS	<i>Lexical DIAchronic SEMantic MAPs</i>	11:30 – 12:30
10	<b>Martine Vanhove</b> , LLACAN (CNRS), INaLCO, USPC	<i>A semantic map of the so-called “Optative negative” in Beja</i>	12:30 – 13:30
	Lunch		13:30–15:00
11	<b>Loic-Michel Perrin</b> , INaLCO (CNRS)	<i>Cultural representations and semantic connections: the model of temperature terms in French and Wolof</i>	15:00 – 16:00
12	<b>Tatiana Nikitina</b> LLACAN (CNRS)	<i>Building an amphichronic semantic map for closely related languages: Insights from Southeastern Mande</i>	16:00 – 17:00
	Closing remarks		17:00 – 17:30
	Workshop dinner		at 19:00

## Poster Session

- **Sergey Bragin, Sergei Obiedkov, & Daria Ryzhova** (National Research University Higher School of Economics), *Formal Concept Lattices as Semantic Maps*
- **Gaëlle Chantrain** (Charles University, Prague), *Mapping the 'unbounded time' domain in Ancient Egyptian: a diachronic approach*
- **Hajnalka Dimény** (Babeş-Bolyai University, Cluj-Napoca), *Some meticulous senses and the lessons drawn*
- **Diana Forker** (Friedrich-Schiller University, Jena), *Comparing semantic maps for the dative domain: Evidence from Nakh-Daghestanian*
- **Elena Karagjosova** (Free University of Berlin), *A diachronic semantic map of temporal, causal and conditional relations*
- **So Miyagawa** (University of Göttingen and Kyoto University) & **Amir Zeldes** (Georgetown University), *A semantic map of the Coptic complementizer *čē*- based on corpus analysis: Grammaticalization and areal typology in Africa*
- **Natalia Perkova** (Stockholm University), *Revisiting semantic maps: the case of comitatives*
- **Anna Smirnitskaya** (Institute of Oriental Studies, Moscow), *The Catalogue of semantic shifts as a way to represent semantic variability*
